CHRIST COLLEGE KEMPER SCHOLARS

"*Education is a kind of insurance. It enables the individual to draw on the experiences of the many to live with integrity, dignity, and usefulness. James Scott Kemper 1967*

The Kemper Scholars Program prepares students for leadership and service, especially in the fields of administration and business. The Foundation believes that undergraduate study of the liberal arts offers the best preparation for life and career; thus the program aims to promote education in the liberal arts while providing opportunities for career exploration, practical experience, and professional growth.

Kemper Scholars receive scholarship financial assistance for three years of $3,000-$8,000 a year depending on demonstrated need. Scholars receive $2,000-$6,000 in summer project stipends for two years. They attend the annual Kemper Scholars Conference for three years. Scholars are placed in an internship at a non-profit organization in Chicago during their post-sophomore year summer. Scholars design and propose their own post-junior year summer projects.
