

Our undergraduate programs are marked by a “hands-on” approach evident in everything from project-oriented assignments to our required internship program to yearly participation in our nationally acclaimed Assessment Center. At Valpo, our focus is to develop exceptional leaders through values-based education and real-life experience.

Valpo’s undergraduate business programs develop successful leaders with a three-pronged approach:

- **General education core:** This University-wide core of liberal studies strengthens your business communication and critical thinking skills while introducing you to global cultures and traditions.
- **CBA block core:** This block of critical core courses gives you an overview of important business principles and tools.
- **Major coursework:** The major area you study will provide you with the specialized skills needed to successfully enter the business world.

Depending on the major that you choose, you can earn either a Bachelor of Science in Accounting or a Bachelor of Science in Business Administration.

Valpo offers all of the following programs:

**Accounting** -- Prepares students for careers in private or public accounting. **Finance** -- Preparation for management positions involving financial decision-making and investment. **Information and Decision Sciences** -- An interdisciplinary major that includes study in operations management, research, statistics, information systems and technology. **International Business** -- Strengthening the program are foreign language courses and study abroad. **Management** -- Developing leadership skills includes an emphasis on ethical and moral values. **Marketing** -- Developing marketing skills to link products, promotions, pricing with customers. **International Business and Global Studies Minor** -- A program particularly popular with students in other programs seeking to add a global perspective. **Certificate in Business Spanish** -- Preparing students for potential business situations they may encounter with Hispanic customers, employees, and managers. **Business Administration Minor** -- A comprehensive course of study in the College of Business Administration for non-business majors who think they may eventually want to seek an MBA degree. **Interdisciplinary Minors** -- Interdisciplinary minors that are offered by the various academic units of the University provide additional breadth for business students.
