

- Applied Statistics

This minor utilizes an interdisciplinary perspective to develop skills in statistical analysis and other fields. The program includes courses offered through the College of Business Administration and the College of Arts and Sciences.

- Business Administration

The Business Administration minor is administered by the College of Business Administration and is designed for non-business students who plan to pursue an MBA (this minor provides more coursework in business than the liberal arts business minor that appears on the College of Arts & Science webpage). This 31-credit minor includes the entire freshman and sophomore core (except the Sophomore Assessment Center) plus such junior courses as:

- Financial Management
- Management and Organizational Behavior
- Marketing Management
