

TUTORING HELP AVAILABLE

The Department of Chemistry provides teaching assistants who are available to help students better understand course material. Teaching assistants are available for Chem111, Chem121, Chem221, and Chem315. Individual tutors are also available for these and other courses. Please contact the Department of Chemistry's administrative assistant, Gina Doneske (x5126), for a list of tutors or for information about class help session. In addition, the [Academic Success Center](#) has information about tutors and class help sessions.
