

ACADEMIC OPPORTUNITIES

In Christ College, many special activities and programs support and enrich the formal curriculum and classroom experience. These include especially the weekly Symposium series, in which upper class CC students engage with provocative writers, artists, and leaders from every field. Christ College also provides many opportunities for students to present their scholarship and research, including supporting travel to the prestigious National Conference on Undergraduate Research.

Christ College students are consistently among the most active on campus in all areas of co-curricular activity, particularly vocal and instrumental music ensembles, theater, student senate, the student newspaper and literary magazine staffs, social concerns ministry of the Chapel of the Resurrection and St. Teresa's Catholic Student Center, Habitat for Humanity, Hilltop House neighborhood daycare and health care services—and many more.
