

PLACEMENT OFFICE

Welcome to the Valparaiso University Education Department's Placement Office. Our highest priority is to meet the needs of our students, graduates and school partners in placement for field experiences, student teaching, and employment after graduation.

The VU Education Department Placement Office works with over 120 outstanding schools in our area to place our students for field and student teaching experiences. Our students graduate with over 700 hours of meaningful experiences working with students from our school partners. Our students come to us from all over the United States and our graduates seek employment locally, and in many diverse areas of the United States and internationally. If you have any questions concerning field and student teaching experiences, employment opportunities, and possible employment of our graduates to meet your needs, please contact:

Dr. Paul W. Tougaw, Coordinator
(219) 464 6106
