

## SCHOOL PSYCHOLOGY AT VALPARAISO UNIVERSITY

Welcome to the Valparaiso University School Psychology Program website.

We are extremely proud of our graduates who are making positive differences in the lives of children and their families in educational settings across the country – and we hope that you, too, might consider joining the ranks of our outstanding graduates in [School Psychology](#).

We encourage you to contact the School Psychology Coordinator, Dr. Christina Grabarek, at 219-464-5790 or [christina.grabarek@valpo.edu](mailto:christina.grabarek@valpo.edu) if you have more specific questions or would like to take a tour of the campus and meet the faculty!

Applications are considered for admission for the next academic year if received prior to March 1, however, applications are encouraged at any time.

If you are interested in applying to the School Psychology program, visit the [VU Graduate Studies](#) website for further information and application forms.
