

## MAJORS FAIR

The Majors Fair is an informal opportunity to meet with faculty and students representing different disciplines to discuss majors and minors, career opportunities and coursework requirements all in one central location. All Valparaiso University colleges, academic departments and students are invited to this open house type gathering which is held early in the spring semester. This event provides a great opportunity to ask questions and gather an array of information pertaining to both academic study and professional practice that can lead you one step closer to finding the major that is right for you.
