

CONSTRUCTION, RENOVATION & PLANNING

The Executive Director of Facilities Management oversees the operations of Construction, Renovation and Planning.

Construction and Renovation tasks typically include:

- Assisting in the development of plans and initial budget.
- Assisting in the selection of an architect when appropriate.
- Assisting in the selection of a construction manager when appropriate.
- Monitoring projects as they evolve.

Planning tasks typically include the development of campus wide repair and replacement plans.

To learn more about current campus projects visit the [Construction Zone Website](#).
