

## Latin American Newspapers

The Center for Research Libraries (CRL), of which VU is a member, has partnered with Readex to produce an archive of Latin American newspapers, giving us we access to the following:

- *El Mercurio* - An important Spanish-language paper published in Santiago, often considered Chile's newspaper of record.
- *O Estado de São Paulo* - This title (published as *A Provincia de São Paulo* until 1889) traces Brazil's history from an empire to a republic, and stands as one of Brazil's premiere newspapers.
- *La Razon, Argentina* - An independent newspaper founded in 1905 , which continues publishing today.
- *Mexican Herald* - An English-language title bringing international and local news to the American expatriate community in Mexico.

The finished project will include approximately 35 fully searchable newspapers. Please try out this new product which can be found from the [library's webpage](#):
