

GENDER STUDIES FACULTY

Feel free to contact any faculty member of the Gender Studies Committee for more information about the Gender Studies Minor or Individualized Major.

Many other faculty members, from a variety of departments, also teach courses in which gender is treated as a specific category. Be sure to talk to them about how their courses might fit into your program for a Minor in Gender Studies. If you think a course should be included in the growing list of courses which satisfy the requirements for the minor, please contact the Gender Studies Chair.
