

THE BASICS

Valpo sophomore, junior, and senior students may live in the Kade-Duesenberg German House and Cultural Center; application takes place in January of the previous year. Students who are serious about their goal to achieve fluency in German should consider living in the House during the sophomore and senior years with the junior year devoted to study abroad.

Students who apply to live in the German House will be informed of their selection status in February before the regular room selection process begins.
