Spring 2008 courses were inadvertently created with two extra links on each course menu. In addition to Instructor Information and Course Tools, the Spring 2008 courses also have Staff Information and Tools on the menu. The content loaded into Instructor Information will be duplicated in Staff Information. Course Tools and Tools will contain the same links.

For instructions to remove the two extra menu items, view [Removing Extra Menu Items](#).

The latest upgrade in Blackboard to version 7.2 created some changes within certain areas of the course management system. Here are some tip sheets on those new features:
