

CLASSROOM TECHNOLOGY

To address the needs of modern instruction various levels of technology are available in classrooms throughout campus. The standard classroom technology cart provides an instructor workstation, document camera, dvd/vhs, and a guest laptop connection. Ceiling mounted projectors allow for large displays that can be visible to the entire class. Some classrooms employ interactive pen display SMART technology through a Smartboard or Sympodium to enhance faculty presentations.

For more information on the technology in each classroom or to report damage or problems with the equipment please contact the IT Help Desk. Faculty and staff training is also available on the classroom technology by request. Please contact Jodie Reminder at x6812 for technology cart instruction. Keys are issued to faculty / staff for using the technology carts during training.

Applications Specific to Classrooms or Areas

Several programs on the NAL are only available in certain areas around campus. These applications are listed under the building and area.

CLR Computer Clusters

The following applications are only available on all computers in the Christopher Center for Library and Information Resources. * Easy CD Creator

CLR 261A and 261B

The following applications are only available in 261A and 261B. * SciFinder Scholar 2006

Writing Center

The following applications are only available on the Writing Center computers. * Adobe Acrobat Professional

Miller Hall 136

The following application is only available in Miller 136. * Quark XPress 4.0 (PC)
