Led by scholars and practitioners from the United States, Chile, and Argentina, Summer Program students will examine legal, historical, and cultural approaches to human rights in Chile and Argentina. Both nations have recently emerged from periods of significant human rights abuse, and both continue to grapple with the need to protect human rights while addressing significant social issues. This unique program offers students immersion in a foreign legal system and a comparative perspective on pressing questions of human rights.

The Summer Program is offered in conjunction with Universidad de Valparaiso, Universidad Católica Argentina, Universidad de Los Andes, and Universidad Austral.
