

What You Get:

Whether you are a professional juggling a career with schooling or a full-time student, our program is designed to fit your needs. You can complete the Valpo MBA in one year through our [38-credit program](#) designed for students with an undergrad business background.

For students with no prior business background you can still have a Master of Business Administration degree in two years (or spread the program over as many as five years to fit your lifestyle) with our [52-credit program](#).

[Foundation Courses](#) – 500 level (14 credits)

These graduate-level courses build the foundation for the program and are designed for students without corresponding undergraduate work or for those whose business coursework is not current.

[Core Courses](#) – 600 level (26 credits)

These courses form the common base of the MBA and are taken by everyone in the program. The core includes advanced courses in business disciplines in three broad areas:

- values-based leadership
- analytical decision making
- strategic leadership

[Enhancement Courses](#) – 700 level (12 credits)

These courses allow you to customize your degree to fit your interests and career goals. A broad selection of courses are taught on a rotating basis including “hot topics” addressing current business trends.

Joint Juris Doctor-MBA

This joint degree program, offered in conjunction with the Valparaiso University School of Law, allows students to complete both degrees in four years.

Getting Started

[View admissions criteria](#) and application deadlines, download application materials and apply for the Valpo MBA program online. Contact the [Financial Aid Office](#) about assistance.

Or contact Cindy Scanlan, Assistant Director of the MBA Program, at (219) 465-7952 or <mailto:cindy.scanlan@valpo.edu> to learn more about the program.
