

Academic excellence within a specific field, while necessary for continuing on to graduate school, is not sufficient in itself. It is also necessary to have a well-rounded undergraduate experience, the self-confidence, and the motivation to persevere through the intensity of graduate work. We believe that at Valparaiso University we can help the student interested in going to graduate school to develop all of these traits in himself or herself.

Many of the alumni of the Department of Mathematics & Computer Science have gone on to graduate school. As expected, many have continued their studies in mathematics, applied mathematics, mathematics education, statistics, operations research and computer science. However, others have used their degree from Valparaiso University as a step towards graduate work in physics, biology, philosophy, and theology. Still others have gone on to law school, medical school, and respected business schools.

Listed below are graduate schools and fields of study chosen by alumni of the Department of Mathematics Computer Science.

YEAR	GRADUATE SCHOOL	FIELD
2007	Thomas M. Cooley School of Law	Law
	University of Notre Dame	Mechanical Engineering
	University of Nebraska	Environmental Science
	Uniformed Serv. U. of the Health Sciences	Bio Chemistry
	Valparaiso University School of Law	Law
	Michigan State University	Physics
	Colorado State University	Physics
2006	Valparaiso University School of Law	Law
	Virginia Tech University	Computer Science
	Argosy University	Mathematics
	Columbia University	Mathematics
2005	MIT	Physics
	UC-San Diego	Physics
	Valparaiso University	Education
	University of Toledo	Education
	University of Wisconsin	Computer Science
2004	CUNY Schools	Education
	Yale University	Physics
	University of New Hampshire	Computer Science

Department of Mathematics & Computer Science - Valparaiso University

	Rutgers University	Mathematics
2003	Purdue University	Computer Engineering
	Devry University	Computer Science
	Fairfield University	Computer Science
2002	University of Hawaii	Computer Science
	Rutgers University	Urban Transportation
	SUNY-Albany	Meteorology
	Michigan State University	Geography
	University of Utah	Statistics
	Valparaiso University	Education
2001	IU-Bloomington	Computer Science
	University of Illinois	Chemistry
	Northern Illinois University	Physics
	Valparaiso University	Education
	University of Toronto	Fluid Dynamics
2000	Claremont Graduate University	Financial Mathematics
	Colorado State University	Meteorology
	Northwestern University	Film Studies
	University of California-Berkeley	Physics
	University of Kentucky	English
