

ALUMNI

Welcome back!

Please let us know what you are up to by emailing us, or by posting to the [VU Physics Alumni blog](#).

You can relive history by browsing the [Photo Scrapbook](#).

We also love to have our alumni come back and present in [our colloquium series](#). This gives our students a chance to hear what our alumni are doing (in physics, in industry, in the classroom, etc.) and inspires them. Please [contact us](#) to discuss options.

Consider giving support to the department. Gift funds are used for operational costs, colloquium speakers, equipment, travel, and other vital expenditures. Contributors like you make our specialized, personalized approach to teaching physics possible. You can do this [online](#) in a matter of minutes. Choose "other" for where you would like to give your donation and write in "Dept. of Physics and Astronomy." Thanks!
