

VU PHYSICS AND ASTRONOMY COLLOQUIUM

Friday, October 30, 2009. Join us in NSC 224 at 3:05 for refreshments and the talks.

NOTE: SPECIAL START TIME

Student Summer Research

"Oxidative Dehydrogenation of Alkanes Using Metal Nanoclusters"

Megan Kania

Department of Physics & Astronomy
Valparaiso University

- - - - -

"The Effect of Hypoxia on Jurkat T-cells in Microfluidic Device"

Katelyn Holub

Department of Physics & Astronomy
Valparaiso University

- - - - -

"Robotic Assisted Mobility in Early Childhood Development"

Stephen Dolph

Department of Physics & Astronomy
Valparaiso University

- - - - -

"Connecting the Dots: Exploring WiFEL's Beamline 2 Over its Full Energy Range"

Disa Walden

Department of Physics & Astronomy
Valparaiso University
