

Psychology Club

The PsychClub is a student-run organization co-sponsored by Dr. Winqvist and Dr. Carlson. While still in its beginning stages, the PsychClub hopes to provide a network of students to share ideas and experiences related to the field of Psychology. The club is open to majors, minors, and anyone else interested in Psychology. The club hopes to take part in a variety of activities including social events, volunteer projects, and professional events as well as taking an active role in welcoming incoming Psychology students. For information regarding the PsychClub please contact either Dr. Winqvist or Dr. Carlson.
