

FAITH & HEALTH COALITION

The Faith & Health Coalition includes a diverse group of faith leaders and organizations from around the state fighting Indiana's number one preventable cause of death and disease—tobacco. It is serious about its commitment to the spiritual and physical well-being of our communities.

Every day we see first-hand the pain and suffering smoking causes families in our ministries. Each year, more than 10,000 Hoosiers die from tobacco-caused diseases, and our state is faced with more than \$2 billion in tobacco-related health care costs. With another 10,000 Hoosier children becoming new addicted smokers each year, this product promises to continue taking a terrible toll on businesses, churches, and families alike. Indiana can and should do better.

Join us and take action today to help reduce the terrible toll of tobacco in Indiana. Visit [Hoosier Faith & Health](#) to learn what you can do right now to make a difference.
