If you are unable to view your photo roster and have recently copied materials from one Bb course into this course, your problem can be fixed by following the steps below.

Some instructors have reported that the Photo Roster is working for them in some classes, but not in others. We have isolated the issue and found the culprit. Blackboard recently added some helpful information banners to the top of your course to let you know when certain background operations were completed. You may have seen something like this:

Unfortunately, this banner interferes with the Photo Roster and prevents it from loading. Fortunately, the fix is easy...all you have to do is close the banner either by clicking the small x in the corner or by clicking the "here" link and navigating to the Photo Roster.
