

Overview

Quinn loves her home in the village of Cinobub, but has always wondered what the rest of the world is like. Then, when her friends and family become ill with a plague, she realizes that she may be the only one who can save them. When she travels to the capital, Lyer, in search of help, she gets a job tutoring the clumsy princess, and discovers that the outside world is far more complicated than she could have ever imagined.

In just ten weeks of intense collaboration, the students who make up the honors college freshman class write, stage, and perform an original 90-minute theatre piece with music based on ideas and themes encountered in their interdisciplinary honors course.
