

GRACE FREIGANG

Computer Engineering Major

*After graduation:
I will be a Software Engineer at
The Boeing Company for Boeing Defense and Space*

Valpo Experience

My favorite memory at Valparaiso University was chartering a new chapter of IEEE - Eta Kappa NU, the honors society for Electrical and Computer Engineers. I have been involved with IEEE on campus since my freshman year, including serving as the professional development chair, vice president, and president. In the month of April during my senior year, I was given the opportunity to serve as an honorary executive board member for the charter and first initiation. This is important to me because I know this organization will last for a really long time, and I have had the opportunity to leave my mark on the College of Engineering.

Research

*Satellite Communication and Ground Station Scheduling
Cube Sats
SatNOGS*

Honors and Awards

*Eastmond Outstanding Senior Award
Eta Kappa Nu Charter Member*

Internships

*Dwyer Instruments - Engineering Sales (Summer '16)
!WIRED Lab - Independent Student Researcher (Summer '17)*

Extracurricular Activities

*IEEE
Tau Beta Pi
IEEE - Eta Kappa Nu
Robotic Football Drive Team*
