

KATHRYN HARROLD

*Mechanical Engineering Major
Bioengineering and
Mathematics Minor*

*After graduation:
I will be attending graduate school,
pursuing a PhD in Mechanical Engineering at the
University of Michigan.*

Valpo Experience

Some of my favorite memories at Valparaiso University have stemmed from the opportunities that I have had to get to know students from different majors, years, and organizations. Through Building Tomorrow, both grading and assisting for lower level engineering classes, working and presenting with Professor Goehler on biomechanics research, and living in the dorms with friends and strangers alike, I have been able to create lasting relationships with people I would have never met without these experiences. These individuals have had an important impact on not only my collegiate experience at Valpo, but also on the person that I have become throughout the past four years. They have pushed and supported me to do things that are out of my comfort zone, to become the best person I can be, and to dream bigger than I ever imagined.

Internship

Teledyne Storm Microwave, Design Engineer (Summers 2016, 2017, 2018)

Research Interest

Biomechanics Injury Prevention Team

Honors and Awards

Hesse Outstanding Freshman Engineering Student

College of Engineering Dean's List (all 4 years)

Presidential Scholarship for Academic Excellence

Austin D Lucas Scholarship

Caterpillar Excellence Scholarship

Extracurricular Activities

Tau Beta Pi

Building Tomorrow

Society of Women Engineers

Favorite Quote

*"If you were able to believe in Santa Claus for like 8 years,
you can believe in yourself for like 5 minutes."*
