

# XIAOTONG TONIA XU

*Civil Engineering Major*

*After graduation:  
I plan to go to Graduate school in the  
University of Alabama.*

## Valpo Experience

*I had a great experience over the two years studying in Valpo. As an international students, I get involved in a lot of activities. I feel so welcoming from all the people here. All the professors, classmates, and friend are so warm-hearted and friendly, which made me feel like Valpo is just my another home. My favorite memory is working with my senior design team Eclipse Engineering. We had a lot of fun doing the project and at the same time we learned a lot about how to finish a real proposal and how to work as a team, which will be my best memory ever.*

## Honors and Awards

*Outstanding International Ambassador Award*

## Research

*Urban Transportation Design*

## Internship

*Storm water management in department of development and storm water in  
Porter County Government*

## Extracurricular Activities

*International Program  
Imleagues basketball tournament  
Chinese students association  
APIC Organization*

## Favorite Quote

*You are never wrong to do the right thing.*
