

NYAMBI NARVAEZ

Mechanical Engineering Major

*After graduation:
I plan on working in industry
until starting graduate school*

Valpo Experience

Some of my favorite memories happened at the chapel. The chapel is one of the best attractions at VU. My first time visiting was for the welcoming convocation. I remember being there as a freshman and feeling ready for the next four years of endless opportunities that lie ahead. I remember one time the university had a horse and carriage ride around campus, and I love horses so that really made my day. I remember witnessing wonderful ceremonies in the chapel such as graduations, weddings, and the MLK Day Celebration. I honestly feel like the best memory I will make at VU is graduating this December from the university. Having the Fall graduation ceremony in the chapel will be a wonderful way to put my undergrad years to rest.
