**RUBRIC FOR EVALUATING UNDERGRADUATE RESEARCH GRANTS**

1. **TYPE OF RESEARCH:**

   Who initiated the research? Is this an original student project or a small contribution to an on-going faculty research project?

   | Student initiates | Student helps initiate | Student has significant role | This is a faculty project |

2. **OWNERSHIP OF RESEARCH:**

   How much did the student contribute? Did the student help design the study? Did the student problem-solve? Or did the student merely perform low-level tasks for a faculty member’s project?

   | Student helps design | Student problem-solves | Student contributes | Student performs low-level tasks |

3. **EQUIPMENT DURATION:**

   If equipment is requested, will it be available for other projects? Or will it be completely consumed in this project?

   | Equipment is long-lasting | Equipment lasts a while | Some equipment remains | All equipment is consumed |

4. **TRAVEL:**

   Is the request for a single person or a group travelling together? Is the conference national or local?

   | Single person/national | Single person/local | Group/national | Group/local |

5. **PROPOSAL QUALITY:**

   Are all parts of the proposal thoroughly and completely covered? Is the quality of each part high? Is the budget both detailed and realistic?

   | High quality/well covered | High quality/incomplete | Low quality/well covered | Low quality/incomplete |
