Opt-in to Use Blackboard for Your Class
An opt-in process has been created to allow instructors the ability to choose what courses need to be created. This process takes place OUTSIDE of Blackboard,

1. Log in to DataVU at https://datavu.valpo.edu by clicking on the Login button in the upper right hand portion
2. Click on the Faculty button to access the Faculty Menu.
3. Click on My Class Schedule.
4. Select the term from the menu.
5. Click on the Submit button.
6. Check the box in the first column for every class that you would like to create a course shell for in Blackboard.
7. Click on the Submit button to add your course to the course creation list. Course creation may take up to 2 hours for your request to be completed during the day and longer if you opt-in during the evening or overnight.

Courses are still created as unavailable in Blackboard, which means that you can build your course without allowing students access until you are ready.
