PROGRAM: Summer Smart, Summer Fun – Valpo Campus

GENERAL DESCRIPTION:
*Eggs-periments of the Eggs-traordinary Sort*
Explore scientific concepts from chemistry to physics and geology to biology using one of the most ordinary objects known to humans...the chicken egg. Campers will learn how engineers protect passengers in automobiles using an egg crash test machine, create beautiful geodes using egg shells, and discover the power of osmosis and diffusion and more through a number of hands-on experiments.

GRADE LEVEL: 5th – 6th grade

REQUIREMENTS: 1) Prerequisite: ED 357; 2) Good standing with the MSEED Program

STIPEND: $10 per hour (minimum of 120 hours, maximum of 167 hours, in consultation with your mentor). Housing will also be provided on VU’s campus.

HOW TO APPLY: Approval form is available on the MSEED website (http://www.valpo.edu/mseed/for-current-students/).

DEADLINE: Approval forms are due the Friday following spring break. Applicants will be notified by April 1st.
