2016-2017 Independent Student Support Worksheet
Office of Financial Aid

Valpo student’s name _________________________________________ Valpo ID #________________________

You have indicated that you (will) have a sibling enrolled in school during the 2016-2017 academic year who is classified as an independent student for FAFSA purposes. Typically, this is someone in graduate school or who is over the age of 23. We understand that many times parents still provide support to these students. We will use this worksheet to determine if your parents provide more than 50% of the independent student’s support and therefore should be included on your FAFSA.

The 2016-2017 Academic year covers the period of July 1, 2016 to June 30, 2017

Independent sibling’s name ___________________________________________

Name of school attending ___________________________________________

Type of school? □ graduate □ undergraduate
