Executive Summary

This report represents data compiled about Valpo graduates from the classes of December 2013, and May and August 2014. Job & Internship Postings for Valpo Students & Alumni

Recognizing that many employers will not physically visit campus to recruit, we encourage employers to post job and internship openings on our job board. Employers seek to control costs, minimize recruiting expenses and hire in the most cost effective manner. We are making sure students and alumni have created profiles on our job board (Handshake), which allows them to access these job postings and post their résumés for employers to see.

Of course we would prefer employers visit campus to recruit students. However, that is not always realistic. We track the number of job postings received through Handshake and in just three months, 747 jobs & internships have been posted by employers.
